## PRESS RELEASE

2007 January 03

### **PropertyMaps.com Expands Service to Manatee, Sarasota, and Charlotte Counties**

*PropertyMaps.com has launched its new visual information service to simplify real estate searching while promising free MLS access to the Florida Sun Coast.*

PropertyMaps.com extends its coverage to include the Manatee Association of Realtors, Sarasota Association of Realtors, Punta Gorda, Port Charlotte, North Port Association of Realtors, and the Venice Area Board of Realtors.

“We are excited to bring this free service to the public in partnership with Keller Williams of Lakewood Ranch. Their agents are extremely knowledgeable and professional, and we are proud to offer our visual information technology as an additional tool for their Internet presence,” says John Beck, President of PropertyMaps, Inc.

#### About PropertyMaps

PropertyMaps.com develops visual information technology that enables people to quickly search and easily perceive millions of real estate listings by plotting their locations and other market data overlays onto popular aerial mapping tools such as Google Maps and Google Earth. PropertyMaps.com is the first map-based search to provide legal access to the Multiple Listing Service (MLS) databases that are used by millions of Realtors® nationwide. Additionally, PropertyMaps is the first to deliver this technology wirelessly to Internet-enabled phones, PDAs, GPS-enabled and other mobile devices. “We believe that pinpointing the exact location of for-sale listings before investing the time into long driving tours is the future of home buying and selling on the Internet,” states the company President, John M. Beck. All of PropertyMaps software services are made available to the public free of charge.

Sarasota based PropertyMaps, Inc has partnered with Silicon Valley’s Rockbridge Group for consulting and investment brokering services. The company expects to finalize Series A funding by the end of the second quarter of 2007.
