PRESS RELEASE

2007 March 12

PropertyMaps Joins RIM's BlackBerry® ISV Alliance Program™

PropertyMaps is pleased to announce our alliance with Research In Motion to promote PropertyMaps Mobile for the BlackBerry.

PropertyMaps, Inc., a leading provider of visual information technology for the real estate industry, has allied with Research in Motion to strengthen its commitment to providing world-class mobile applications.

Through this alliance, PropertyMaps will continue to improve PropertyMaps Mobile, the world's first map-based real estate search application for the BlackBerry. PropertyMaps Mobile can be installed Over-the-Air by visiting www.PropertyMaps.com/pmm with supported BlackBerry devices. We will now display the alliance logo on our materials related to PropertyMaps Mobile on the BlackBerry:

About PropertyMaps

PropertyMaps.com develops visual information technology that enables people to quickly search and easily perceive millions of real estate listings by plotting their locations and other market data overlays onto popular aerial mapping tools such as Google Maps and Google Earth. PropertyMaps.com is the first map-based search to provide legal access to the Multiple Listing Service (MLS) databases that are used by millions of Realtors® nationwide. Additionally, PropertyMaps is the first to deliver this technology wirelessly to Internet-enabled phones, PDAs, GPS-enabled and other mobile devices. "We believe that pinpointing the exact location of for-sale listings before investing the time into long driving tours is the future of home buying and selling on the Internet," states the company President, John M. Beck. All of PropertyMaps software services are made available to the public free of charge.

Sarasota based PropertyMaps, Inc has partnered with Silicon Valley's Rockbridge Group for consulting and investment brokering services. The company expects to finalize Series A funding by the end of the second quarter of 2007.

The BlackBerry and RIM families of related marks, images and symbols are the exclusive properties of and trademarks or registered trademarks of Research in Motion Limited - used by permission.
