

## FOR IMMEDIATE RELEASE

# Holy Smokes: Real Estate Search Site PropertyMaps.com Adds 'Camel City' Home Listings to Growing Database

*The free web site PropertyMaps.com makes it easier than ever to find homes for sale in Winston-Salem, NC.*

Sarasota, Fla. / Sept. 7, 2007 – The Winston-Salem, NC area might be best known for tobacco, but Sarasota-based PropertyMaps.com is lighting on fire the area's real estate market by making home search easier than ever.

The web site PropertyMaps.com added all the MLS listings from the area to its growing database of homes for sale nationwide. For each listing, there are photographs, information about area hospitals, schools and even sexual offenders who might live nearby.

"One area at a time, we're building a web site that's second to none," says John Beck, President of PropertyMaps.com. "Eventually we'll have every home for sale across the country available at the click of a mouse."

PropertyMaps.com is a user-friendly web site that allows consumers to quickly search and view millions of listings nationwide using popular mapping tools such as Google Maps, Google Earth, and Microsoft Virtual Earth. It's also the first web site to provide consumers free map-based access to the Multiple Listing Service (MLS) databases used by Realtors® nationwide.

PropertyMaps.com also delivers real estate content wirelessly to Internet-enabled phones, PDAs, GPS-enabled and other mobile devices.

"It shouldn't be a struggle to find a place to live," says Beck. "Information is good and we're making it easier than ever for home shoppers to access it."

**About PropertyMaps.com:** Using popular mapping tools such as Google Maps, Google Earth, and Microsoft Virtual Earth, PropertyMaps.com enables people to quickly search and easily visualize millions of real estate listings by plotting their locations and local market data free of charge. PropertyMaps.com is the first Internet site to provide map-based access to the authentic Multiple Listing Service (MLS) databases that are used by Realtors® nationwide. PropertyMaps delivers the content wirelessly to Internet-enabled phones, PDAs, GPS-enabled and other mobile devices.
